RECORD FIELD IN DEAL GOLF

SHERMAN LEADS THE ROUND FOR THE SECOND YEAR.

Travers and Peters Only One Stroke Away Two Havemeyers Slip Into First Set After a Tie-High Scores From Unexpected Quarters-Course in Fine Shape

That imp of the perverse which controls golf balls on occasions when the players want them to run smoothly had a great inning yesterday at the Deal Golf Club, for 119 returned cards in the qualifying round and not a man jack of the bunch was fully contented with his score.

The fine players growled over wasted puts and the poorer ones bemoaned foozled drives. There was the record entry for an M. G. A. tournament of 162, and by the time Messrs. Allen, Hurd, Delehanty and Rogers had posted up all the cards, run off the ties and made the draw they were aware the were

Last year Tom Sherman came to the tournament a dark horse and won the score medal with 86 and the chief cup. Yesterday he made good on half of the proposition by again winning the score medal, this time with 83. Jerome Travers and Ralph Peters, Jr., were next at 84, R. B. Stoutenberg, a Deal junior, did 85, and there were two at 86—Mackellar and Pfeil. This was better than last year's leaders, let they all had kicks coming. J. B. Turner, Jr., who holds the amateur record at Deal with 78, was the leader of the growlers,

however, as he needed 96. All the tees were moved, making the round All the tees were moved, making the round 6,500 yards, and Norton had the turf just right, while the wind was not a factor to prevent good scoring. C. H. Wheeler, Jr., nearly holed his tee shot on the 183 yard sixth hole and had it in two. John M. Byers had a two on the 150 yard eighth and Ralph Peters, Jr., a two on the 100 yard thirteenth hole. None of the others was so fortunate, and one took thirteen for the thirteenth.

Four had to play off a tie at 90 for three places in the first set. Four cups will be played for this morning by as many sixteens, The draw for the first cup is a well balanced one and holds out a promise of a hot first round. It was:

Squadron A Wins Westchester Polo Cups. NEWPORT, Aug. 24 .- The Squadron A polo team of New York this afternoon won the final in the tournament for the Westchester Polo Club cups, defeating the Great Neck team in a game that was anything but eresting, by a score of 6 to 2%. During the same one of the thickest fogs of the on hung over the field, making fast riding impossible. Rainey rode into Burden in the fog and the former was thrown over the head of his pony, spraining his wrist, but after it was bound up he again got in the same.

THE REAL ESTATE MARKET.

PRIVATE ALES, LEASES AND PUBLIC AUCTIONS.

The Farmers' Lean and Trust Co. Realizes on the Mercantile Primises at 117 and 119 Mercer Street—Good List of

containing no transactions of special importance, yesterday's list of private sales indicated a widespread interest in the cheaper grades of residence property. The amount of business was very considerable for this season of the year.
It included a rather large proportion of deals in building sites. As a matter of fact, probably as much new construction work is being projected at the present time as was planned last spring. Building activity instead of decreasing is at least holding its own in volume, if not actually growing larger. It is, however, confined almost wholly to the production of flats and tenements. These are just now being erected in increasing numbers on Washington Heights and in the older districts, particularly the easterly section of Harlem, where sites are made available through the demolition of existing private dwellings.

Wanted—Vice-President for above company; must deposit \$6,000; will receive 50,000 shares fully paid up and non-assessable stock, besides wages and emoluments, and double your money back in three months. This is a good, safe opportunity of one million year, as you have world wide monopoly.

ble your money back in three months. This is a good, safe opportunity of one million a year, as you have world wide monopoly.

This Company is formed for the purpose of Manufacturing Patented Machinery in its own factories in all parts of the world. It has several lines of patented Machinery as well as a Power Electric Engine. This is a Perpetual Power Engine. I have a small working engine in my workshop. I mean just what I say. I have also a land and water vehicle. This will push all automobiles out of the market. The inventor has sold all these inventions to the Company for one million two hundred thousand shares, which leaves eight hundred thousand to be sold to stockholders, of which one hundred thousand shares have been sold. There are still fifty thousand shares to be sold at the present price, which is one hundred dollars for one hundred shares. No more will be sold at that price. Now, if you have one hundred dollars, this is the time to grasp a competency for life and your heirs after you, for when our factories are established in all parts of the world you may depend on it dividends will net you in yearly twenty times the amount of what you paid in, namely, two thousand yearly. This is no wildcat scheme, but a bona fide world wide monopoly, that will outrival any steel trust or railway corporation. There is no watered efock; neither will there be any preferred stock, nor any such nonsense as selling and buying on margins; that the shares will rise to thirty or forty dollars a share is quite probable before this six hundred thousand shares are sold. But remember no less than one hundred shares sold on one certificate. We have no debts in this company; neither do we latend to contract any if possible. Shares will remain at 2,000,000 for all time. It will be the business of the Directors' whoever they may be, when they see a good invention of martitorious points placed on the market, to buy into the company so that the monopoly will still remain in the company ad infinitum.
